   b. Scott C. suggested changes to the website.
      1) To facilitate reading the material, avoid a high level of contrast resulting from white text on black background. Rather, use a lighter background with somewhat darker text.
      2) Remove the owl.
      3) Remove hyperlinks from the center of the page.
      4) Use appropriately titled drop-down menu headings across the top of the page. The menu headings would function somewhat like a table of contents to the website. Examples of menu headings: Activities, Birding, Calendar, Conservation, and Publications. When engaged, a menu would open revealing hyperlinks to multiple related items. For instance, menu heading Publications:
         a) Newsletter
         b) Meeting minutes
         c) Birds of Northern Colorado Pocket Guide
         d) Pawnee Grasslands Self-guided Birding Tour
         e) Colorado Wildscapes Book
         f) Birds of Larimer County Field Check List
5. When a hyperlink is clicked on, rather than presenting information within a small region on the home page, link to a more easily read full size web page.

6) Steps 2 through 5 would serve to open up the center of the page.

7. Perhaps members could submit digital images that would appear on the front page.
