Birds of Mason Trail
Field Check List
March 2016

Date __________________________ Weather _______________________

Time in field ____________________ Distances by car _____ by foot _______________
Locality ________________________ Total Species _______ Individuals ________

Observers ________________________

Season
S - Spring, summer, and fall (migration and summer)
M - Migration (spring and late summer into fall)
Ms - Migration, but more numerous in spring than in fall
MF - Migration, but more numerous in fall than in spring
W - Winter (late fall through the winter)
Y - Year-round, in roughly the same number throughout year
Ys - Year-round, but more numerous in migration and summer
Ym - Year-round, but more numerous in migration
Yw - Year-round, but more numerous in migration and winter

Abundance
A - Abundant: may be seen daily in suitable habitat, and counted in relatively large numbers
C - Common to fairly common: may be seen daily in suitable habitat, and counted in significant but not large numbers
U - Uncommon: may be seen in suitable habitat and season in relatively small numbers
R - Rare: seen infrequently and perhaps not even annually
R* - Very rarely seen, but several birds exist for Larimer County
V - Visitor, casual or accidental: few records or only one record
I - Irregular: present in numbers some years; scarce other years

Breeding Status
B - Confirmed breeder in Larimer County
b - Probable or possible breeder in Larimer County
No letter: non-breeder

Birds in bold type have been seen on Mason Trail. Notable subspecies or color variants appear indented below species name.
